Resource 2 - Classroom Descriptions

I am a bit fed up with my Year 4 class at the moment. The children are lovely and at the beginning of the year we decided we didn't need any rules. Now everyone is becoming very selfish and we spend ages sorting out problems. We never seem to get any work finished and lots of things are broken in the classroom. The accident book is full of names from our class and most days I have to talk to at least one child who is crying.

I really enjoy teaching Year 3. The children are very friendly and really look after each other. We have some clear rules which are displayed for everyone to see. The children are very good at keeping the classroom tidy and most days they work really hard. We get through a lot of work because everyone concentrates and helps each other. On some afternoons we have time to do more creative projects which are great fun. When things go wrong, we work them out together as a class.
